Green for Love

"Shall we compare our hearts to a garden—with beautiful blooms, straggling weeds, swooping birds and sunshine and rain—and most importantly, seeds?" – Grey Livingston

Something green can be an inspiration for couples. They believe in nature and wish for something beautiful on their wedding day. For those looking for a perfect venue of vibrant garden, lush forest or dazzling green paddy field, here are some venues for your "green wedding."

Forest of Love

Komaneka at Bisma is located in Ubud and offers intimate weddings set against a backdrop of rice fields, sacred rivers and Bali's exotic culture.

Komaneka at Bisma offers four special venues for everything from small weddings to grand ceremonies. Wanasmara is an iconic non-denominational chapel dedicated to the celebration of love and marriage. Wanasmara itself means "forest of love" in high Balinese, reflecting its location amid the treetops of a tropical rainforest overlooking the Campuhan river gorge. The pavilion is made almost entirely of wood and glass, inspired by

the traditional architecture of Toraja, and can accommodate up to 48 people, perfect for intimate weddings attended by family and close friends.

Komaneka has other facilities including Wanasmara Suite, a wedding preparation room with lounge area, waiting room and two separate rooms for the bride and groom. The Roof Terrace is absolutely ideal for a cocktail reception, Campuhan Terrace Restaurant is an elegant open-air venue for the wedding feast, and Campuhan Terrace Stage is an airy space for live music or dance performances.

With enchanted venues, Komaneka is backed by expert staff to help and guide clients with all the details of their event, including guest accommodation, decorations, entertainment and the wedding feast. Komaneka's wedding organizer is ready to help clients create their dream day and guide them every step of the day.

Sophisticated Bandung

When you hear the word Burgundy, what's the first thing that comes to mind? France. Wine. And Bandung. Wait, Bandung? Yes, Bandung. Located in Bandung, on Jalan Raya Maribaya, Burgundy Dine & Wine offers a fine-dining experience inspired by France. Burgundy welcomes couples looking to celebrate their wedding day. The staff will help you select a wedding package to best suit your needs. Couples can use the Terrace, a semi-indoor terrace that is usually the main dining area, with views of the mountains of Lembang. Pinot Noir, complete with large fireplace, is one of the popular private rooms for weddings.

Gamay Room is filled with warm colours and is more formal than Pinot Noir. For a different ambience, The Village offers thick forest in an outdoor area where you can feel the Maribaya forest breeze. This intimate area was inspired by Ubud, the artistic and cultural heart of Bali. Finally, Chardonnay Bar beckons those who want to enjoy Burgundy's large wine collection.
