KOMANEKA BOTIQUE RESORTS BALI

KOMANEKA

Aboutique **resort collection** that reflects the soul of Bali in the heart of Ubud; Komaneka's five resorts resonate with the natural beauty and slowed-down rhythm of the island's rural landscape and the cultural heritage and artistic flair of the creative hub of Ubud.

Komaneka began life as fine art gallery residences before being developed into five family-run resorts, each of which portrays an artist's innate sense of style and magical use of color, light, and shade. Flashes of brilliance run through the design of the resorts so that they do not simply blend with the setting but enhance every special feature. Vistas perfectly frame the lush green views of the region's iconic paddy fields, soaring mountains, and tropical rainforest.

Komaneka plunges guests into a verdant wonderland that seems far, far away from Bali's beach, dive, and surf culture. The cold mountains and naturally laid-back energy of Komaneka and Ubud are still less than an hour from the coast.

Komaneka resorts are sophisticated sanctuaries, set in incredible locations, and are renowned for their upscale ambiance, relaxed energy, and impressive service. With every aspect of the design and resort lifestyle well thought out, Komaneka promises an authentic experience in the island's uplands where the real depth of Bali's inner beauty is delicately discovered.

The Komaneka Resorts:

Komaneka at Monkey Forest is close to the center of Ubud with its many arts and cultural events, and yet retains its signature atmosphere of a luxurious oasis. The first resort of the collection, it is still home to the renowned Komaneka Fine Art Gallery. The resort, with its suites and pool villas, has also been upgraded with an infinity pool in a gorgeous garden setting.

Komaneka at Bisma is a true forest retreat set in five hectares and with its own rice fields. With suites and pool villas nestled in the depths of the greenery, the resort has a secluded feel. The extra-long pool and spacious layout create an upscale luxe appeal while a free-standing pavilion takes views across the canopies and beyond the treetops.

Komaneka at Tangayuda is a quiet, spacious resort that takes traditional design features and gives them a contemporary essence. The effect is to create a luxury resort of mainly pool villas that fits wonderfully with the tropical rainforest location. The beautiful resort, with its luxurious villa spa sanctuary, overlooks a river valley while al fresco dining affords dramatic views of Batakaru volcano.

Komaneka at Rasa Sayang is a peaceful, elegant boutique hotel set back from the main Ubud streets. Smart and modern, with suites and a rooftop villa, the resort has a cozy hideaway vibe with a chic style edge. The shaded infinity pool and wooden design features add to its oasis charm.

Komaneka at Keramas to open in the last quarter of 2017, is the fifth and newest in the collection of Komaneka Resorts boutique hotels with a 360-degree view that includes the Indian Ocean and the neighboring island Nusa Penida, living rice fields, and the glorious Mount Agung, Bali's highest and holiest volcano. Devotees of Komaneka Resorts will be happy to find the same warm and gracious Balinese hospitality that makes Komaneka resorts consistent winner of top travel award with 5-star comfort. All villas have private pools and free views of the sea — on a sprawling 4-hectare property that comes right to the edge of a beautiful black-sand beach. Komaneka at Keramas is approximately a 30-minute drive from Ubud, 15 minutes from Sanur, and 55 minutes from Ngurah Rai International Airport.
